 RE: Do You Support Our Values?

Lower Cape Indivisible (LCI) is an organization whose mission is to mobilize for social, economic, and environmental justice, promote universal participation in the democratic process, and resist agendas that subvert American democracy. (A summary of our priorities is at the bottom.) For the upcoming midterm elections we will apprise our members which candidates support our priorities, and will publicize activities members can engage in to promote those candidates. The six questions below address current vital issues candidates are likely to encounter if they are elected and carrying out legislative, custodial, or prosecutorial duties. Please indicate your position on whether you support these issues as YES or NO. We will post responses on our website/Facebook pages. Please return the completed form electronically or via the Postal Service:
